

Power in One sample t-test

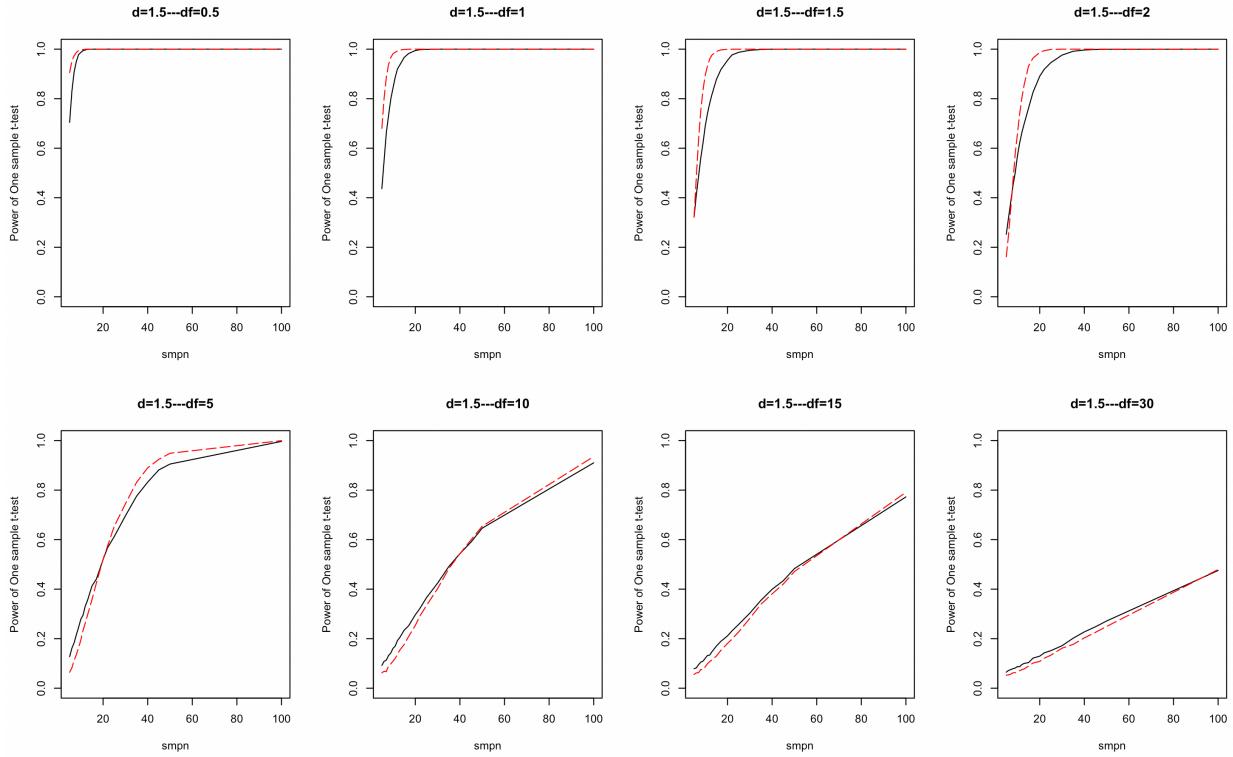

Power comparison of normal (black) vs chisq (red) data under different d
1.d=0.5

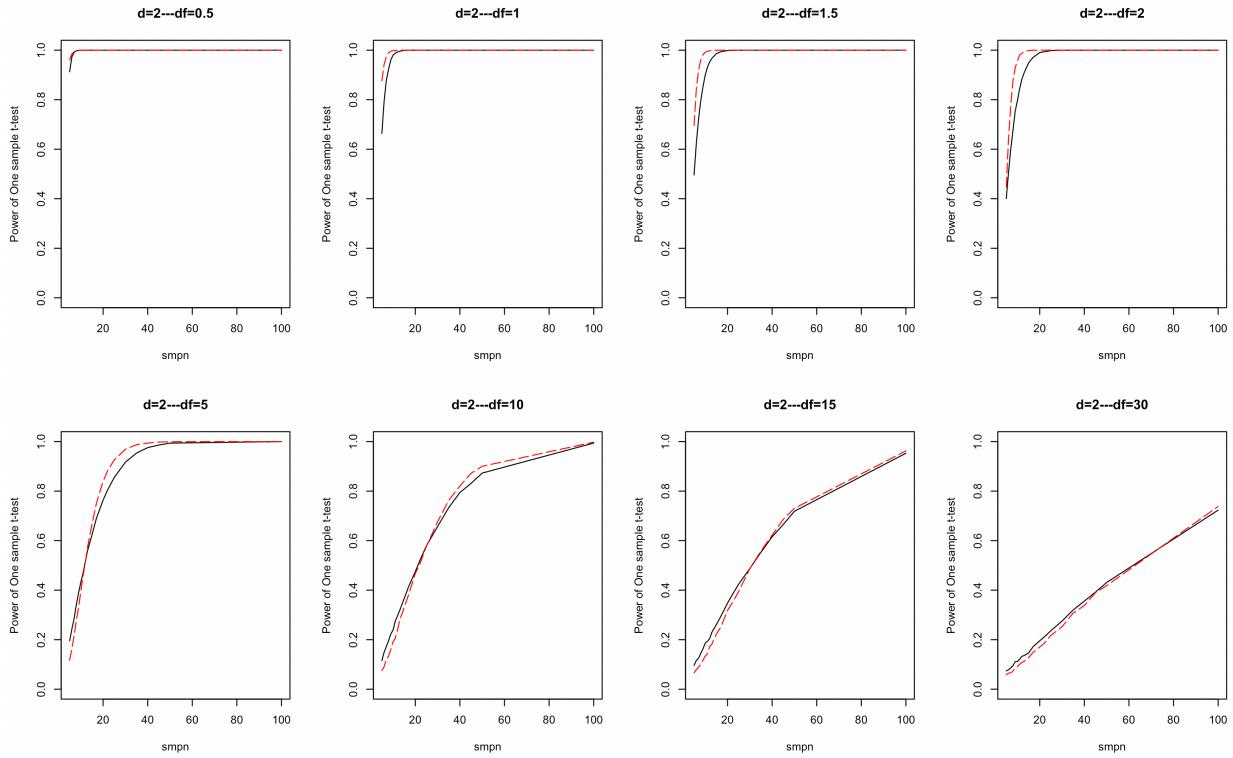

2.d=1

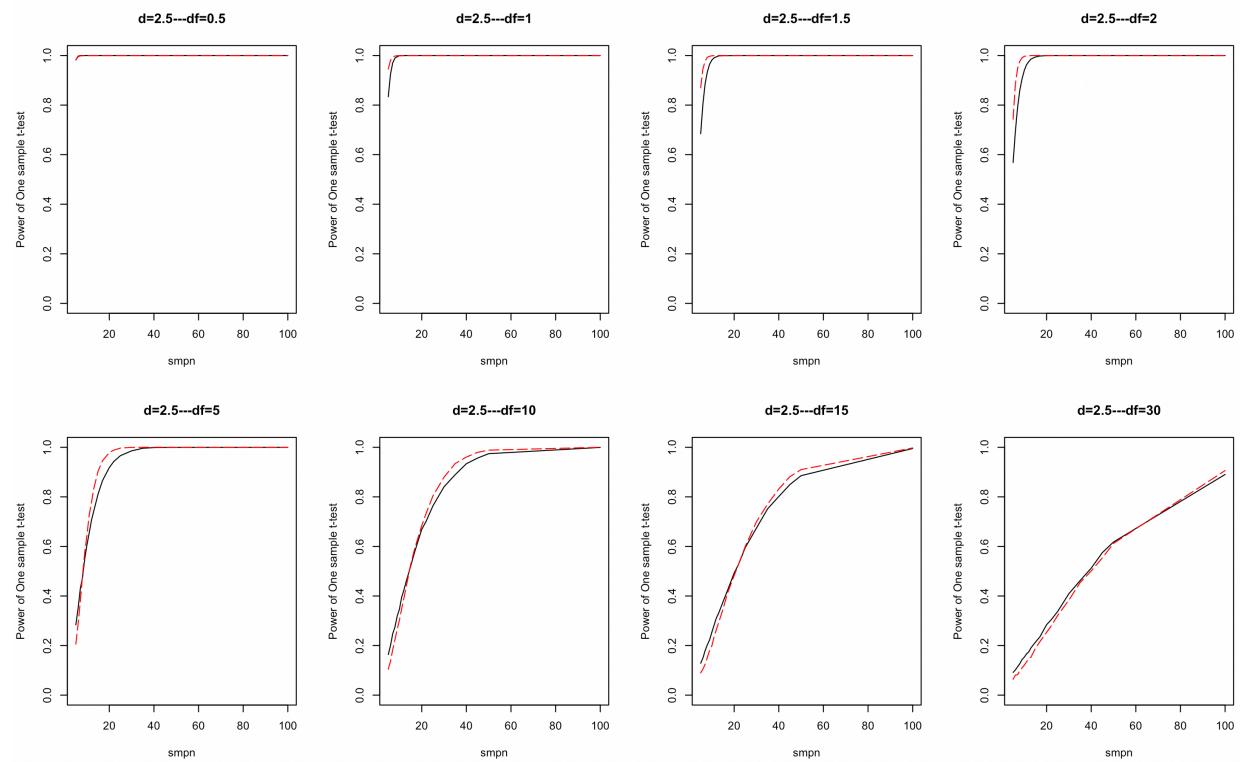

3. d=1.5

4. d=2

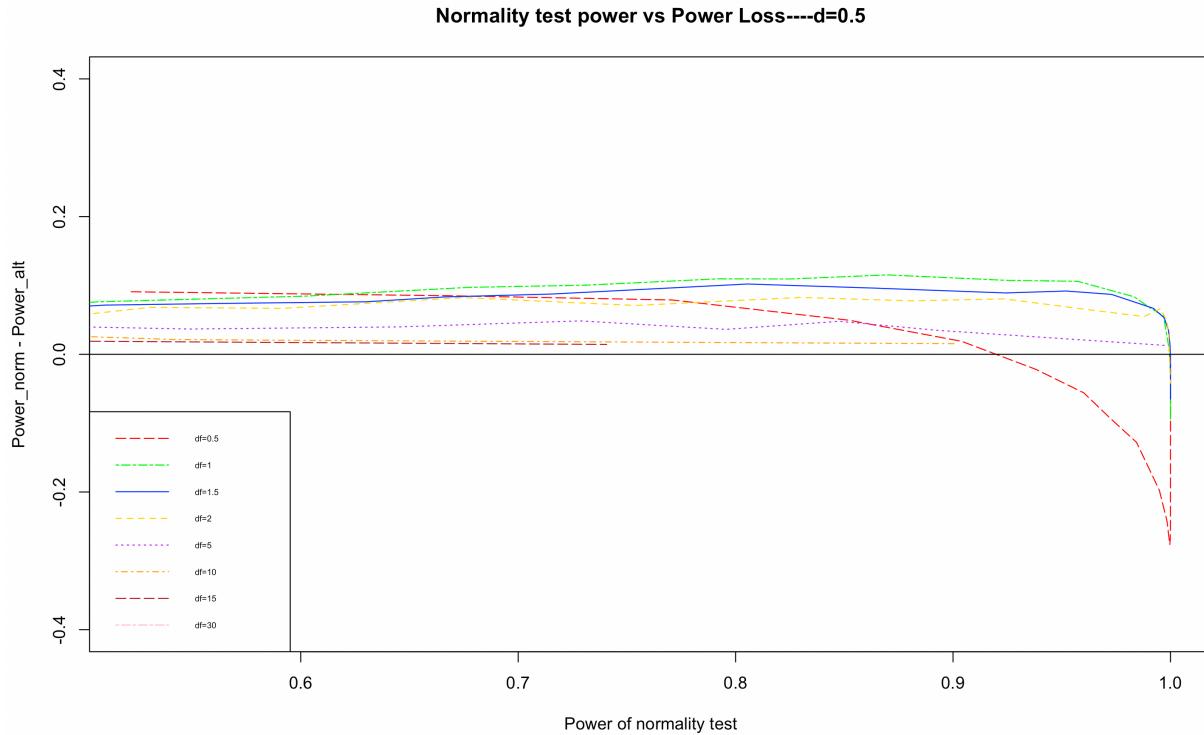

5.d=2.5

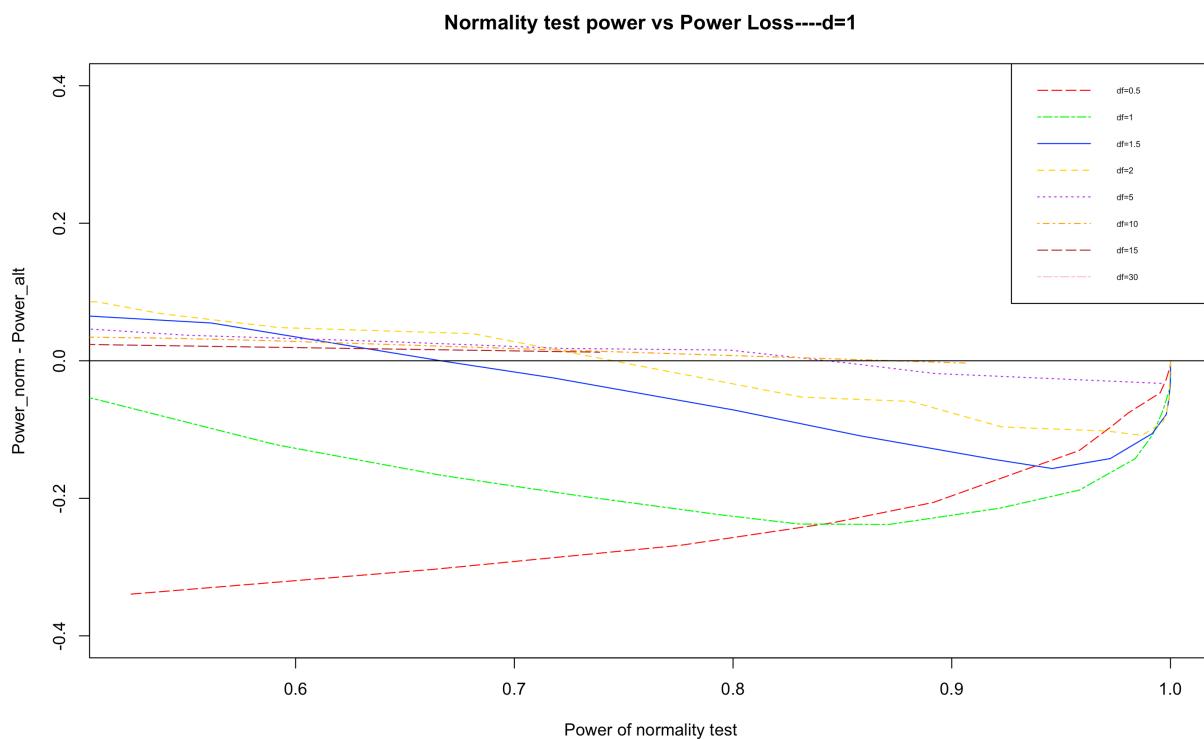

Normality test power vs Power loss under different d

1.d=0.5

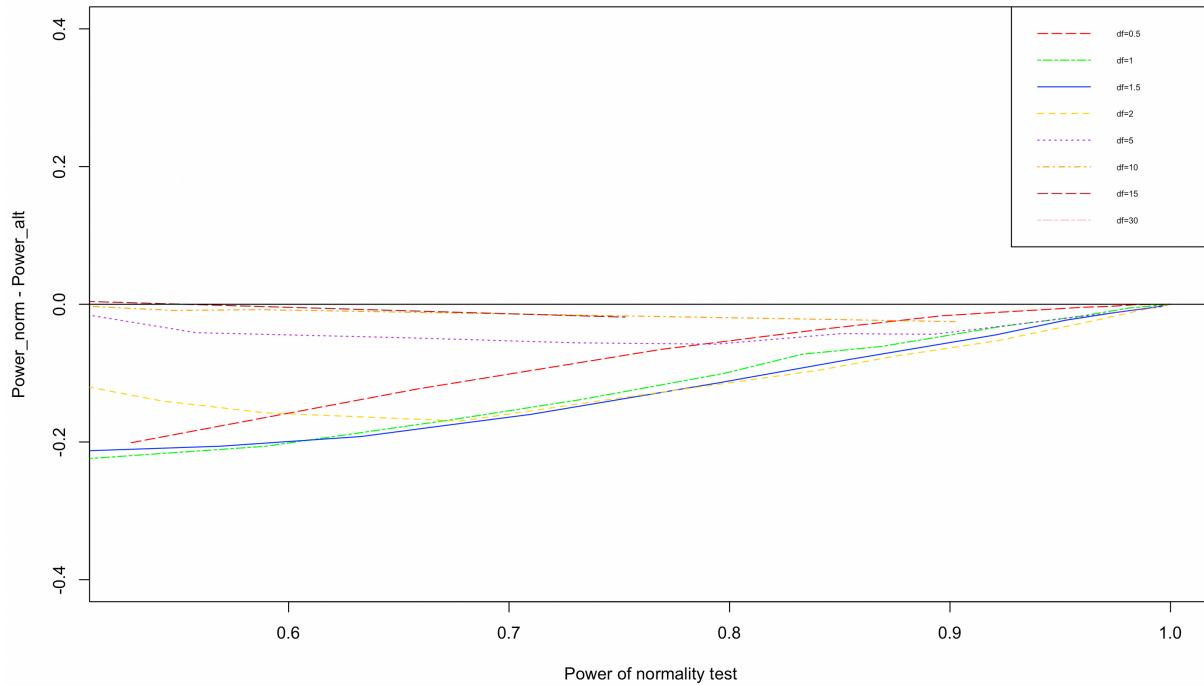

2.d=1

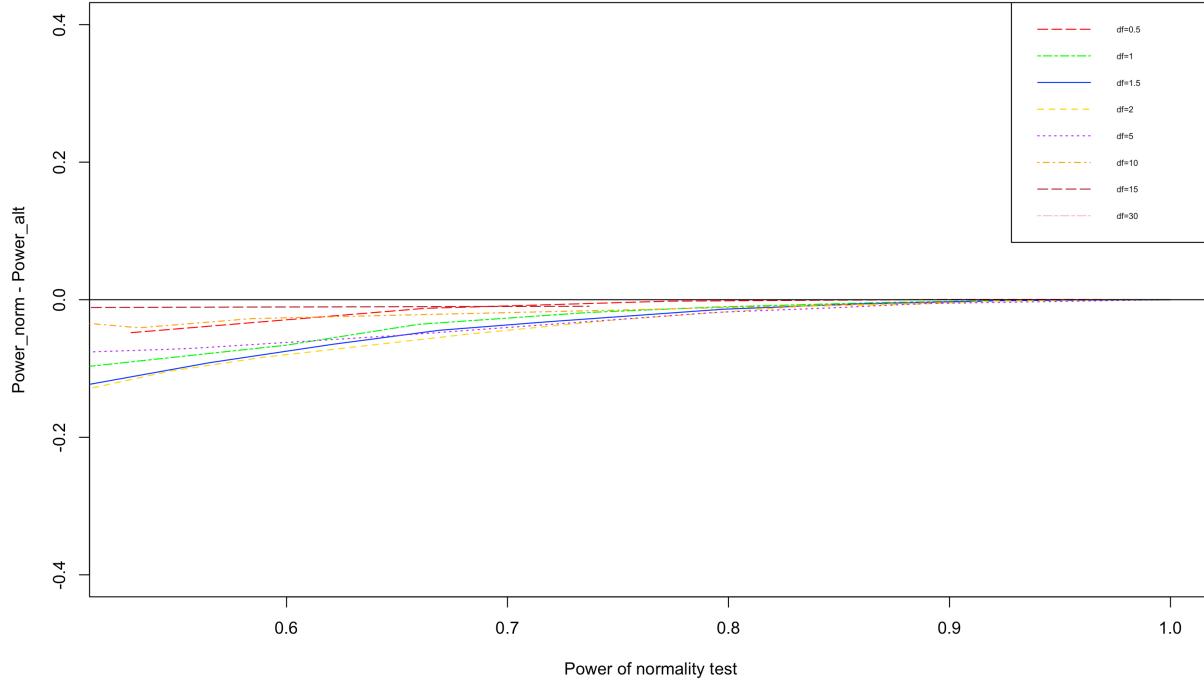

3.d=1.5

Normality test power vs Power Loss----d=1.5

4.d=2

Normality test power vs Power Loss----d=2

5.d=2.5

Normality test power vs Power Loss----d=2.5
